

IN THE SPECIFICATION

Please amend the specification, paragraphs [0008] and [0009], as follows:

[0008] The present invention will now be described, by way of example only, with reference to the accompanying figures, in which:

Figure 1 shows, schematically, a laptop PC connected to a GPS receiver, both operating in accordance with the present invention; and

Figure 2 is a block diagram of a GPS receiver, operating in accordance with the present invention.

[0009] Referring to the accompanying figure 1, the laptop PC is connected via a USB PC port and corresponding cable to the GPS receiver 10 which consists of a GPS RF front-end Rx and a GPS antenna, as shown in figure 2. Whilst the GPS receiver could have been a "dongle" type device thereby omitting the cable, the cable facilitates positioning of the GPS receiver (including the antenna) in a prominent position, thereby increasing the chances of acquiring GPS signals.
